

**ELETRONICA GROUP  
SUPPLIER OF THE MARITIME AND LAND CAPABILITY  
OF THE JEWCS NATO PROGRAM**

Elettronica Group will be a supplier under the contract between Leonardo and the UK Ministry of Defense for the modernization of NATO's Joint Electronic Warfare Core Staff. This is a contract awarded to Leonardo with an international tender and with a duration of 4 years, for the supply of training systems for electronic defence.

Elettronica Group, with its consolidated experience in the field of electronic warfare, will contribute to NATO's JEWCS program supplying a "Land Training System" composed of several vehicles and at the same time a "Maritime Training System" based on multiple shelters.

Both types of platforms will be provided with: electromagnetic environment simulators capable of emitting multiple signals simultaneously, echo radar simulators, active electronic countermeasures and radar signal receivers. The supply will involve two of the three companies of the Group: Elt based in Rome and the German subsidiary Elt GmbH.

Elettronica has been positively assessed thanks to its innovative proprietary technologies that represent the state of the art in electronic warfare and has benefitted from the long standing experience of the Group in this sector.

**Elettronica Group**

Elettronica Group, as a European leader in Defence & Security, has been on the cutting edge of Electronic Warfare for more than 60 years, supplying Armed Forces and Governments of 30 Countries with more than 3000 high technology systems.

Elettronica's systems are deployed for a variety of key operational missions, from Strategic Surveillance, to Self Protection, Sigint, Electronic Attack and Operational Support for airborne, naval and ground applications. Elettronica Group boasts a strong record of successful domestic and international collaborations on all the key modern military platforms such as the Italian PPA, the fighter Eurofighter Typhoon, the NFH-90 helicopter, the Italian and French ship class Horizon and FREMM, and a wide range of projects in the Gulf, Middle East and Asia.

The Group is composed by three industrial assets, Elettronica S.p.A, headquarter, based in Rome, leader in full EW capabilities, CY4GATE, a joint venture with Expert System, born to address today's emerging and evolving needs in cyber domain, specialized in Cyber EW, Cyber Security and Intelligence, and Elettronica GmbH, the German subsidiary specialized in EW signal processing design and production and Homeland Security solutions.
